English

French

Muaikei Daryle Favour Menka Ikei

Frontend and Mobile Developer

Experience

Oct 2025 – Present
Monniz — Cotonou,
Benin

Jul 2025 – Sep 2025
AZUR COURTAJE —
Cotonou, Benin

Nov 2024 – Jun 2025
E4Afrika — Cotonou,
Benin

Mobile Developer

- Develop and maintain mobile applications using Flutter and Dart.
- Collaborate with cross-functional teams to implement new features and improve application performance.
- Participate in code reviews, debugging, and UI/UX optimization.
- Work within agile development cycles and version control workflows using Git/GitLab.

Summer Intern (Full-Stack Development)

- Built and tested responsive front-end interfaces using Vue.js and Nuxt.
- Supported DevOps processes through containerized development using Docker.
- Assisted with cloud-based deployments and testing using AWS.
- Collaborated with senior developers on full-stack enhancements and bug resolution.

Software Engineering Intern

- Developed mobile application features using Flutter and implemented CRUD operations.
- Contributed to UI improvements, bug fixing, and testing of existing applications.
- Worked on collaborative front-end tasks using JavaScript and modern development tools.
